4	Asset Allocation to Multiple Employees	High	Error message is displayed indicating asset can only be allocated to one employee
5	Asset Transfer	High	Asset is transferred to new employee successfully
6	Asset Transfer without Approval	High	Error message is displayed indicating transfer requires approval
7	Maintenance Request	High	Maintenance request is created successfully
8	Maintenance Request without Asset Selection	High	Error message is displayed indicating asset must be selected
9	Warranty Expiry	Medium	Warranty expiry date is displayed correctly
10	Disposal Approval	High	Disposal approval is requested successfully
11	Disposal Approval without Finance Approval	High	Error message is displayed indicating finance approval is required
12	Barcode Generation	Medium	Barcode is generated successfully
13	Reporting	Medium	Report is generated successfully
14	Reporting with Filtering	Medium	Report is generated successfully with filtered data
15	Audit History	Medium	Audit history is displayed correctly
16	User Login	High	User is logged in successfully
17	User Login with Invalid Credentials	High	Error message is displayed indicating invalid credentials
18	Permission Validation	High	Permission is validated correctly
19	Error Handling	High	Error is handled correctly and error message is displayed
20	Security Validation	High	Security validation is performed correctly
21	API Validation	Medium	API validation is performed correctly
22	Database Validation	Medium	Database validation is performed correctly
23	Boundary Value Test Case - Asset Registration	Medium	Asset is registered successfully and unique ID is generated
24	Boundary Value Test Case - Asset Allocation	Medium	Asset is allocated to employee successfully
25	Boundary Value Test Case - Maintenance Request	Medium	Maintenance request is created successfully
26	Negative Test Case - Asset Registration	High	Error message is displayed indicating user does not have permission
27	Negative Test Case - Asset Allocation	High	Error message is displayed indicating user does not have permission

28	Negative Test Case - Maintenance Request	High	Error message is displayed indicating user does not have permission
29	Mandatory Field Validation - Asset Registration	High	Error message is displayed indicating mandatory fields are required
30	Mandatory Field Validation - Asset Allocation	High	Error message is displayed indicating mandatory fields are required
31	Mandatory Field Validation - Maintenance Request	High	Error message is displayed indicating mandatory fields are required
32	UI Validation - Asset Registration	Medium	UI is displayed correctly and is user-friendly
33	UI Validation - Asset Allocation	Medium	UI is displayed correctly and is user-friendly
34	UI Validation - Maintenance Request	Medium	UI is displayed correctly and is user-friendly
35	Functional Validation - Asset Registration	High	Asset is registered successfully and unique ID is generated
36	Functional Validation - Asset Allocation	High	Asset is allocated to employee successfully
37	Functional Validation - Maintenance Request	High	Maintenance request is created successfully
